RAND'OXYGENE
LE PAYS BASQUE

A wide-angle photograph of a suspension bridge spanning a deep, forested gorge. The bridge is made of metal planks and has a simple metal railing. A group of about 20 people are walking across the bridge, some in the middle and others near the ends. The gorge is filled with dense green trees and foliage. On the right side, a stone structure with an arched opening supports the bridge. The overall scene is a scenic view of a natural landscape with a man-made structure.
