RAND'OXYGENE
LE PAYS BASQUE

A wide-angle photograph of a coastal scene. In the foreground, there are green, fleshy-leaved plants. The middle ground shows a dark blue sea with white-capped waves breaking against a long, low concrete breakwater that extends from the right side towards the center. In the background, a coastal town with buildings and a church spire is visible on a slight rise, with mountains in the distance under a heavy, grey, overcast sky.
